RE: Proposal for SWPPP for Caltrans 08-0R1304, Bids 7/27/16

Dear Prime Contractor;

Thank you for the opportunity to provide a bid for this work. We provide civil and stormwater engineering services.

Scope of Work:

- A. Prepare Stormwater Pollution Prevention Plan (SWPPP).
 - I. Prepare SWPPP per State and contract requirements. Include Rain Event Action Plan (REAP) template, Construction Site Monitoring Plan and Sampling and Analysis Plan where required.
 - II. Prepare Water Pollution Control Drawings as part of the SWPPP.
 - III. Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.
- B. Storm Water Annual Report
 - I. Prepare Stormwater Annual Report in accordance with SWRCB and Caltrans requirements. This service can only be provided if we also prepare the SWPPP or provide stormwater inspection.

Fee:

The SWPPP will be prepared for a Fixed Fee of the following, with fees billed monthly based upon percent completion:

- A. Prepare SWPPP (Part of Bid Item No. 11) \$2,600
- B. Storm Water Annual Report (\$500 EA x 3, Bid Item No. 12) \$1,500

Fees will be due within 30 days of client's receipt of invoice. Late payments beyond 30 days past due can be subject to a 1.5% per month interest charge. Payment arrangements can be made to coincide with any owner to contractor payment installments.

Timing and deliverables:

The SWPPP will be provided within 2 weeks of authorization to proceed. The document will be provided in hard copy (4 copies) and electronic PDF format.

Sincerely,

AUTHORIZATION TO PROCEED

Bidder's Name: Granite Construction Company
Contract No.: 08-0R1304

1. List items of work the Bidder made available to DBE firms. Identify items of work the Bidder might otherwise perform with its own forces, items that have been broken down into economically feasible units to facilitate DBE participation, and items for which the Bidder has established flexible time frames for performance and delivery schedules in a manner that encourages and facilitates DBE participation. For each item listed, show the dollar value and percentage of the total contract. The Bidder must demonstrate that sufficient work to meet the goal was made available to DBE firms.

2. List the names of certified DBEs and all the dates on which they were solicited to bid on this project. Include the items of work offered and the dates and methods used for following up initial and follow-up solicitations to determine with certainty whether the DBEs were interested. Attach copies of solicitations: e-mail messages, telephone records, fax confirmations, etc.

Name of DBE Solicited	Date of Initial Solicitation	Items of Work Offered	Follow Up Methods and Dates
See Attachment A, Appendix 3 of the Good Faith Effort Documentation			

3. For each item of work made available, indicate whether the Bidder provided plans and specifications specific to the items of work being offered. List the selected firm and its status as a DBE, the DBEs that provided quotes, the price quote for each firm, and the price difference for each DBE if the selected firm is not a DBE. Provide copies of each DBE and Non-DBE quote submitted to the Bidder whenever a Non-DBE firm was selected over a DBE for work on the Contract.

RE: *For Your Review Caltrans District 8 -- Contract No. 08-OR1304 -- for Construction on Route 62 from 0.1 Mile East of Sherwood Road to 0.1 Mile East of Lee Drive in San Bernardino County*

COMMENTS: You are listed as a plan holder for the above-referenced Caltrans contract. The bid specs identify a contractor-supplied biologist (item number 18 on the bid list [25 days]). ECORP Consulting, Inc. (ECORP) is a fully qualified and well-respected Caltrans services provider serving multiple districts throughout California. Please find a brief statement of qualifications attached.

The quote below is for biological services. Some notes for this job:

We think it is likely that you will not need more than one biological monitor per day. However, if work is conducted in multiple locations along the 10-mile segment (3.3 miles to be constructed on) of highway simultaneously, then more than one monitor may be required. We have also provided a half-day (up to five hours) rate so that if there is an equipment failure or work is stopped early for weather or any other reason, you will not be charged for the full day. Based on a review of the Special Provisions, ECORP anticipates that a biological monitor will be required on site for approximately 25 working days (Table 1, Breakdown of Costs). We have also provided costs for preconstruction biological surveys, preparing and presenting a Biological Resources Information Program (BRIP), and writing a final monitoring report for the project. These tasks are outlined in the Special Provisions 14-6.02, 14-6.05, and 14-6.08.

Task 1: Biological Resources Information Program (BRIP)

ECORP will develop and deliver a BRIP (training). The program will include a description of regulated species that may be affected by construction; requirements for the protection of regulated species; definitions and consequences of unauthorized "take"; what to do when you see a regulated species or a species that looks like a regulated species; permit requirements for touching or moving a regulated species; definition and identification of an ESA and/or SPA; and description, habitats, and ecology of regulated species. ECORP will prepare and provide handouts for all attendees of the training and will post the training handout on all construction field offices and information boards. Signatures of all attendees of the training will be collected and submitted to the Engineer within two (2) days following the training. ECORP will provide hard-hat stickers to each recipient of the training, which will identify which personnel have been trained to biological monitor on site. Client will provide copies of all applicable

environmental permits (e.g., biological opinions, etc.) and mitigation measures. It is assumed that one initial training will occur prior to the start of work that will be timed with the preconstruction survey task. Any additional trainings will be conducted as part of the biological monitoring task by the biological monitor while conducting normal monitoring duties.

Task 2: Preconstruction Survey

ECORP will provide qualified biologists to conduct a preconstruction survey within 14 days of the start of the project, addressing all the resources identified in the PLACs. The survey will include desert tortoise and their burrows by an authorized biologist before the start of ground-disturbing activities following the U. S. Fish and Wildlife 2010 field survey protocol or the most current approved protocol.

Task 3: Biological Monitoring

ECORP will provide qualified biological monitors during construction/project implementation for the above-referenced project that meet the Caltrans PLAC requirements and the requirements of the regulatory agencies. Monitoring will primarily take place by Desert Tortoise Biological Monitors, with supplemental monitoring conducted by Desert Tortoise Authorized Biologists on an as-needed basis. The biological monitor will document compliance with applicable permits and maintenance of buffer/protection areas and monitor the protection of sensitive species and their habitats. Client and their subcontractors will be responsible for the safety or other required trainings of the biological monitor provided.

Monitoring is required daily for an estimated total of 5 weeks. The biological monitor will look for desert tortoise, their diagnostic signs and rare plants 50 feet out from the road shoulder. This reconnaissance will extend from the start-point to the anticipated end-point of daily activity in which a monitoring visit takes place. The monitor will then survey around the anticipated staging area where work equipment will be stored for the evening. For the purposes of the estimate we assumed a total of 25 days would be required to support this work and is subject to change based on the Client's schedule. ECORP will develop a daily monitoring reporting form that includes line items for incident reporting. The completed forms will be compiled and submitted to the client electronically on a weekly basis in the form of weekly monitoring reports.

Task 3 Cost (FULL DAY) \$ 1,350.00/day*

*inclusive of travel and Other Direct costs. Assumes a maximum of 10 hours of onsite monitoring per day. Additional time will result in overtime charges in accordance with State and Federal laws. Hours in excess of 10 per day will be charged at \$145/hr. Costs are per monitor provided.

If monitor is required for fewer than five hours in a given day, the client will be charged the "Half Day" rate of \$800.00.

Task 3 Cost (HALF DAY) \$ 800.00/half day**

**inclusive of travel and Other Direct costs. Assumes a maximum of 5hrs/day. Costs are per monitor provided.

$$\text{\$1,350/day} \times 25 \text{ DY} = \text{\$33,750}^{\circ\circ}$$

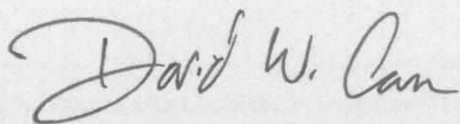

Table 1 Breakdown of Estimated Costs

Task	Cost
Task 1: Biological Resources Information Program (BRIP)	\$1,200
Task 2: Preconstruction Survey	\$3,900
Task 3: Biological Monitoring and Reporting (Full Rate for 25 days)*	\$33,750
TOTAL ESTIMATE	\$38,850

ADDITIONAL ASSUMPTIONS:

- Client will provide ECORP with electronic copies of all the environmental permits for the project; and
- ECORP will submit the qualifications of the contractor-supplied biologist electronically to Client for distribution to Caltrans and the regulatory agencies.

I have attached a flyer which provides an overview of all of our services for your review. Thank you for the opportunity, we wish you well. If you have any questions, please call me at (714) 648-0630 or e-mail dcarr@ecorpconsulting.com.

CONDITIONS OF BID PROPOSAL

08-0R1304

San Bernardino County In Joshua Tree And Near Twenty Nine Palms

Acceptance of this proposal by Contractor shall be acceptance of all terms and conditions recited herein which shall supersede any conflicting term in any other contract document. Any of the Contractor's terms and conditions in addition or different from this proposal are objected to and shall have no effect. Contractor's agreement herewith shall be evidenced by Contractor's signature hereon or by permitting Subcontractor to commence work for project.

1. Subcontractor shall be paid monthly progress payments on or before the 15th of each month for the value of work completed plus the amount of materials and equipment suitably stored on or off site. Final payment shall be due 30 days after the work described in the Proposal is substantially completed. No provision of this agreement shall serve to void the Subcontractor's entitlement to payment for properly performed work or suitably stored materials or to require the Subcontractor to continue performance if timely payments are not made to Subcontractor for suitably performed work or stored materials or to void Subcontractor's right to file a lien or claim on its behalf in the event that any payment to Subcontractor is not timely made. **NO RETENTION WILL BE HELD ON MATERIALS ON HAND**

2. The Contractor will withhold no more retention from the Subcontractor other than is being withheld by the Owner from the Contractor with respect to the Subcontractor's work.

3. All sums not paid when due shall bear an interest rate of 1½% per month or the maximum legal rate permitted by law whichever is less; and all costs of collection, including a reasonable attorney's fee, shall be paid by Contractor.

4. No backcharges or claim of the Contractor for services shall be valid except by an agreement in writing by the Subcontractor before the work is executed, except in the case of the Subcontractor's failure to meet any requirement of the subcontract agreement. In such event, the Contractor shall notify the Subcontractor of such default, in writing, and allow the Subcontractor reasonable time to correct any deficiency before incurring any cost chargeable to the Subcontractor.

5. Contractor is to prepare all work areas so as to be acceptable for Subcontractor work under the Subcontract. Subcontractor will not be called upon to start work until sufficient areas are ready to insure continued work. The Contractor shall furnish all temporary site facilities including suitable storage space, hoisting, temporary electrical and water at no cost to Subcontractor.

6. Subcontractor shall be given a reasonable time in which to make delivery of materials and/or labor to commence and complete the performance of the contract. Subcontractor shall not be responsible for delays or defaults where occasioned by any causes of any kind and extend beyond its control, including but not limited to: delays caused by the owner, general contractor, architect and/or engineers, delays in transportation, shortage of raw materials, civil disorders, labor difficulties, vendor allocations, fires, floods, accidents and acts of God. Subcontractor shall be entitled to equitable adjustment in the subcontract amount for additional costs due to unanticipated project delays or accelerations caused by others whose acts are not the Subcontractor's responsibility and to time extensions for unavoidable delays. The Contractor shall make no demand for liquidated damages for delays in excess of the amount specified in the subcontract agreement and no liquidated damages may be assessed against Subcontractor for more than the amount paid by the Contractor for unexcused delays to the extent actually caused by Subcontractor.

7. The Subcontractor's equipment and work are guaranteed for a period of one year from the date of substantial completion or use by the Contractor or the Contractor's customer, whichever is earlier. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The exclusive remedy shall be that Subcontractor will replace or repair any part of its work which is found to be defective. Subcontractor shall not be responsible for damage or defect caused by abuse, modifications not executed by the Subcontractor, improper or insufficient maintenance, improper operation or normal wear, tear and usage.

8. Work called for herein is to be performed during Subcontractor's regular working hours. All work performed outside of such hours shall be charged for at rates or amounts agreed upon by the parties at the time overtime is authorized.

9. Contractor shall, if the Owner does not, purchase and maintain all risk insurance upon full value of the entire work and/or materials delivered to the jobsite, which shall include the interest of Subcontractor.

10. The Subcontractor shall indemnify and hold harmless the Contractor, Owner, Architect or others from damages only to the extent such damages were caused by any negligent act or omission of the Subcontractor or anyone for whose acts the Subcontractor is liable.

No bid shall be accepted nor any subcontract entered into without proof of the Subcontractor's current registration to perform public work pursuant to Section 1725.5.

Granite Construction Company is signatory to Operating Engineers, Laborers, Teamsters, Cement Masons and Carpenters unions. 100% performance and payment bonds may be required for the full amount of subcontract price. Granite will pay for bond premium up to 1.5%. Subcontractors must possess a current contractor's license, insurance and worker's compensation coverage meeting Granite's requirements and will be required to sign the standard Granite Subcontract Agreement. A copy of the insurance requirements and agreement can be obtained by contacting the estimator. Please call if you need assistance in obtaining bonding, insurance, equipment, materials and/or supplies. Granite intends to work cooperatively with all qualified firms seeking work on this project.

Dear Carolyn:

Thank you for taking time from your busy schedule to give me this vital information. Because of the high demand for our DBE participation on mega projects, specifically tunnel projects, I am only negotiating subcontracts on projects that are in the area of over \$100 million dollars. While we won't be bidding on this project, I appreciate your invitation and your interest in our firm. Good luck on your bid.
